Turkey Lane

MERINOS

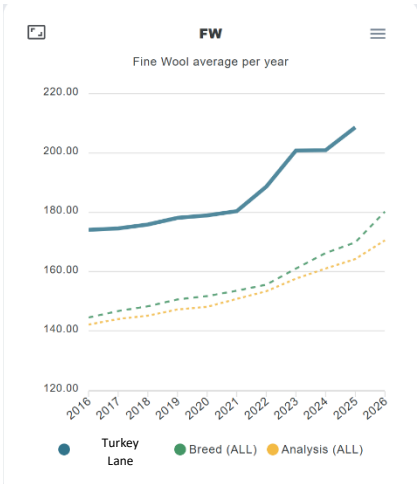

FRIDAY 13TH NOVEMBER

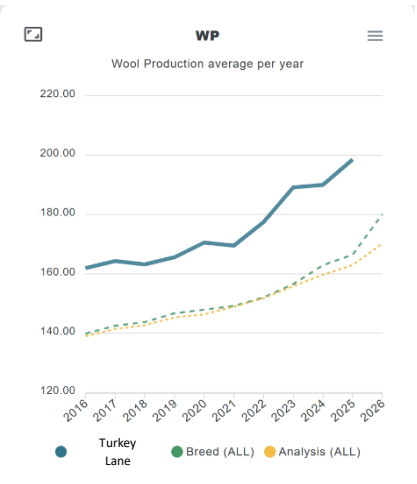

INSPECTIONS 12PM

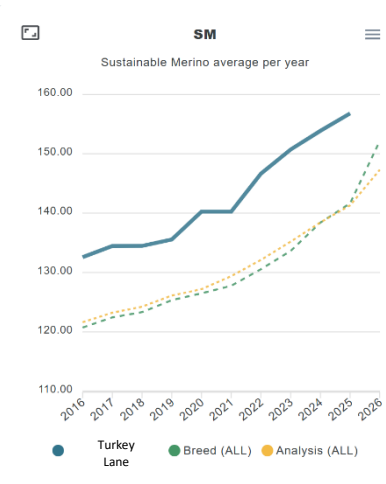

SALE STARTS 2PM

63 HIGH PREFORMANCE RAMS

HELMSMAN AUCTION

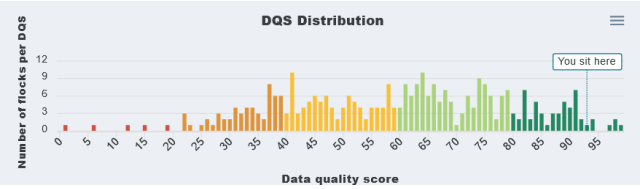

Message from Turkey Lane

It's been a refreshing change to have a more traditional season this year after the challenges of the past two years. A good opening break and consistent rainfall have kept feed in front of the sheep throughout the year, and for once, the feed-out cart has spent more time parked up than working! It's certainly made for a much more enjoyable year on the farm.

One thing that hasn't changed at Turkey Lane is how we run our sheep. Our rams are paddock reared alongside the rest of our flock, with no special treatment or extra feeding to prepare them for sale. With an average winter stocking rate of 15.8 DSE/ha, they need to perform under the same conditions as any commercial Merino flock. We believe this gives buyers a true indication of what our genetics can deliver in their own paddocks.

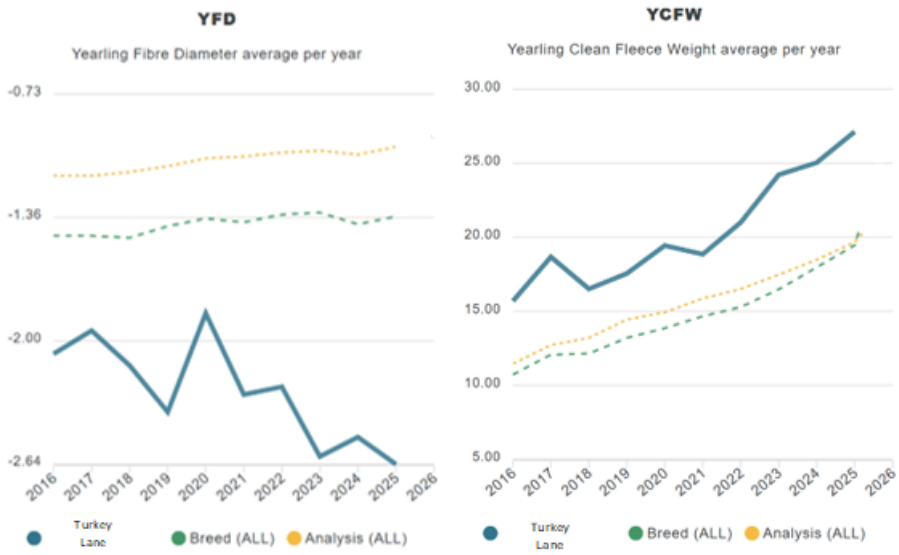

We've been particularly impressed with the wool coming through on this year's sale team. Years of selecting against fleece faults, while maintaining our focus on wool production and quality, are really starting to show. Our aim has always been to breed sheep that cut more wool at a finer micron, without adding wrinkle or compromising worm resistance and the practical traits that make Merinos easier to manage.

The accuracy of our data continues to be a big priority. Turkey Lane has again received a 5-star rating from Sheep Genetics, reflecting the effort we put into collecting quality performance records. We want our clients to have confidence in the ASBVs and be able to select rams based on reliable information, rather than just how they look on sale day.

The graphs below give a good indication of where our breeding program is heading compared with the wider Merino industry. We're pleased with the progress we're making, particularly in combining increased wool cut with finer micron, and there's still plenty more we want to achieve.

We're looking forward to presenting this year's rams and catching up with both returning and new clients. Whether you're chasing wool production, finer micron, or a balance of traits, we're always happy to talk through the data and help find rams that suit your operation.

Disease Status

Turkey Lane flock has MN1V status for OJD in the National program, brucellosis Accreditation (1354), no lice has ever been detected in the flock and no forms of scald or footrot in the flock. We intend to undertake sterilisation footbath (15 minutes) after ram sale as part of our enhanced biosecurity plan (2025 drop sheep have never been foot bathed).

Measurement Dates

- Rams born July – August 2025
- Shorn 23rd March 2026
- Drenched 24th November 2025 & 5th May 2026
- Fat and eye muscle depths 29th June 2026
- Individual Worm Egg Count (WEC) on female sibling 15th February 2026
- Wool pin bone samples 23rd March & 11th September 2026
- Ram Physicals and Scrotal Circumference 11th September 2025
- Yearling body weigh 15th September 2025

Abbreviations
YWT – Yearling Weight ASBV
YCFW – Yearling Clean Fleece Weight ASBV
ACFW – Adult Clean Fleece Weight ASBV
YFD – Yearling Fibre Diameter ASBV
YFDCV – Yearling Fibre Diameter Coefficient Deviation ASBV
YSS – Yearling staple strength ASBV
YSL – Yearling Staple Length ASBV
EBWR – Early Breach Wrinkle ASBV
YFAT – Yearling Fat ASBV
YEMD – Yearling Muscle Depth ASBV
YSC – Yearling Scrotal Circumference ASBV
YWEC – Yearling Worm Egg Count
FW – Fine Wool Index
WP – Wool Production Index
SM – Sustainable Merino Index
Poll – PP, PH, HH
BT – Birth Type
RT – Rear Type
